PENSION GANGSTER

A NO-NONSENSE GUIDE TO ETHICAL PENSIONS, INVESTMENTS AND BANKING

TIM EWINS

- The first non-fiction title by acclaimed novelist, Tim Ewins, tying in with his career in ethical financial advice.
- The first easy to use and jargon-free book to help better understand the impact of your pension investments, the banking industry, and what you can do about it.
- Advanced fact-checking and support from third parties including Make My Money Matter.
- Ties in with Renard's industry-leading sustainability work.

Why are so many children investing in alcohol, pornography and guns? What does your bank really do with your money?

Are you a Pension Gangster, and if you are, how can you get out of the game?

Tim Ewins, a chartered financial adviser specialising in ethical finance with a background in stand-up comedy, takes your hand in this no-nonsense guide, helping you to find out how your money affects the world – and what you can do about it.

It's an industry where, just by doing nothing, you're likely to be funding companies you're ethically opposed to. *Pension Gangster* sets out the steps you can take, irrespective of personal fortune, to align your personal finances with your ethical beliefs, and to make sure your bank balance isn't costing the earth.

**'An invaluable guide to the
most powerful tool in tackling the climate crisis.'**
MAKE MY MONEY MATTER

ABOUT THE AUTHOR:

Alongside his career in finance, Tim Ewins performed stand-up comedy for eight years. He also had a very brief acting stint (he's in the film *Bronson*, somewhere in the background) before turning to writing. His first novel, *We Are Animals*, was published in 2021, followed by *Tiny Pieces of Enid* in 2023. *Pension Gangster* is his first non-fiction book. When not writing, Tim enjoys learning about football through his eager son, reading (of course), swimming and spending time at home in Clevedon with his wife and son.
